Each project must include one lead partner and at least one beneficiary partner. - Eligible lead partner: any eligible entity established in a Beneficiary State; - Eligible beneficiary partner: any eligible entity established in a Beneficiary State, Ireland, Italy or Spain; - Expertise partners can be any eligible entity established in a Donor State, in a non-eligible EU Member State or international organisations. - The Donor States are Norway, Iceland and Liechtenstein. Only entities established in one of the 15 Beneficiary States can apply for funding and perform the tasks of lead partner in the project consortia. There is no limit on the maximum number of beneficiary partners. The establishment of project consortia with more members than the minimum is considered favourable. Eligible project partners may be entities, public or private, commercial or non-commercial and non-governmental organisations, established as legal persons, including but not limited to: - Municipalities, organisations owned or partly owned by municipalities, associations of municipalities; - Regions, organisations owned or partly owned by regions; associations of regions; - Organisational units of central government, organisations partly funded by central government units, state enterprises, state organisations; - Public and private education and research institutions; - Civil society organisations, non-profit organisations, social enterprises, interest associations of legal persons, foundations and endowment funds; - Commercial companies; - Cooperatives (manufacturing, housing, consumer); - Business support organisations (incubators, start-up centres, etc.); and - Social partners (trade unions, sector associations, employer associations, chambers of commerce and industry).
