	Τίτλος:	H2020 - Call for Proposals: CALL FOR PROPOSALS FOR ERC SYNERGY GRANT (ERC-2019-SYG)

	Φορέας Κοινοποίησης:	EUROPEAN COMMISSION - DIRECTORATE GENERAL FOR COMMUNICATIONS NETWORKS, CONTENT AND TECHNOLOGY
	Ημερομηνία Δημοσίευσης:	07-09-2018
	Προθεσμία Υποβολής:	08-11-2018
	Περίληψη Πρόσκλησης:	<p>Scope:</p> <p>Objectives</p> <p>ERC Synergy Grants are intended to enable minimum two to maximum four Principal Investigators and their teams to bring together complementary skills, knowledge, and resources in new ways, in order to jointly address ambitious research problems. The aim is to promote substantial advances at the frontiers of knowledge, to cross-fertilize scientific fields, and to encourage new productive lines of enquiry and new methods and techniques, including unconventional approaches and investigations at the interface between established disciplines. This should enable transformative research not only at the forefront of European science but also to become a benchmark on a global scale.</p> <p>Applicants Principal Investigators must demonstrate the synergies, complementarities and added value that could lead to breakthroughs that would not be possible by the individual Principal Investigators working alone.</p> <p>Size of ERC Synergy Grants</p> <p>Synergy Grants may be awarded up to a maximum of EUR 10 000 000 for a period of 6 years. The maximum award is reduced pro rata temporis for projects of a shorter duration. This does not apply to ongoing projects.</p> <p>However, up to an additional EUR 4 000 000 in total can be requested in the proposal to cover (a) eligible "start-up" costs for Principal Investigators moving to the EU or an Associated Country from elsewhere as a consequence of receiving the ERC grant and/or (b) the purchase of major equipment and/or (c) access to large facilities. As any additional funding is to cover major one-off costs it is not subject to pro-rata temporis reduction for projects of shorter duration. All funding requested is assessed during evaluation.</p> <p>Profile of the ERC Synergy Grant Principal Investigators</p> <p>Groups applying for the ERC Synergy Grant must be made up of a minimum of two and a maximum of four Principal Investigators and, as necessary, their teams. One of the Principal Investigators must be designated as the Corresponding Principal Investigator.</p> <p>Applications are expected from a group of innovative and active Principal Investigators and must present an early achievement track-record or a 10-year track-record whichever is most appropriate for their career stage (see Starting, Consolidator and Advanced Grant profiles). There is little prospect of an application succeeding in the absence of such a record.</p>

	Περίληψη Πρόσκλησης:	<p>Scope: Objectives ERC Starting Grants are designed to support excellent Principal Investigators at the career stage at which they are starting their own independent research team or programme. Applicant Principal Investigators must demonstrate the ground-breaking nature, ambition and feasibility of their scientific proposal. Size of ERC Starting Grants Starting Grants may be awarded up to a maximum of EUR 1 500 000 for a period of 5 years (The maximum award is reduced pro rata temporis for projects of a shorter duration. This does not apply to ongoing projects). However, up to an additional EUR 500 000 can be requested in the proposal to cover (a) eligible "start-up" costs for Principal Investigators moving to the EU or an Associated Country from elsewhere as a consequence of receiving the ERC grant and/or (b) the purchase of major equipment and/or (c) access to large facilities (As any additional funding is to cover major one-off costs it is not subject to pro-rata temporis reduction for projects of shorter duration. All funding requested is assessed during evaluation). Profile of the ERC Starting Grant Principal Investigator The Principal Investigator shall have been awarded their first PhD at least 2 and up to 7 years prior to 1 January 2019. The effective elapsed time since the award of the first PhD can be reduced in certain properly documented circumstances. A competitive Starting Grant Principal Investigator must have already shown the potential for research independence and evidence of maturity, for example by having produced at least one important publication as main author or without the participation of their PhD supervisor. Applicant Principal Investigators should also be able to demonstrate a promising track record of early achievements appropriate to their research field and career stage, including significant publications (as main author) in major international peer-reviewed multidisciplinary scientific journals, or in the leading international peer-reviewed journals of their respective field. They may also demonstrate a record of invited presentations in well-established international conferences, granted patents, awards, prizes etc. For further information please see the ERC Work Programme 2019.</p>
