#### Περίληψη Πρόσκλησης:

##### Objectives

The ERC Starting Grants are designed to support excellent Principal Investigators at the career stage at which they are starting their own independent research team or programme. Principal Investigators must demonstrate the ground-breaking nature, ambition and feasibility of their scientific proposal.

##### Size of ERC Starting Grants

Starting Grants may be awarded up to a maximum of EUR 1 500 000 for a period of 5 years. The maximum size of the grants is reduced pro rata temporis for projects of a shorter duration. (This does not apply to ongoing projects).

Additional funding up to EUR 1 000 000 can be requested in the proposal to cover the following eligible costs when these are necessary to carry out the proposed work: (a) "start-up" costs for Principal Investigators moving to the EU or an Associated Country from elsewhere as a consequence of receiving the ERC grant and/or (b) the purchase of major equipment and/or (c) access to large facilities and/or (d) other major experimental and field work costs, excluding personnel costs.

Additional funding is not subject to pro rata temporis reduction for projects of shorter duration.

All funding requested is assessed during evaluation.

##### Profile of the ERC Starting Grant Principal Investigator

The Principal Investigators shall have been awarded their first PhD at least 2 and up to 7 years prior to 1 January 2021. Cut-off dates: PhD awarded from 1 January 2014 to 31 December 2018 (inclusive).

The eligibility period can be extended beyond 7 years in certain properly documented circumstances.

A competitive Starting Grant Principal Investigator must have already shown the potential for research independence and evidence of maturity, for example by having produced at least one important publication as main author or without the participation of their PhD supervisor. Applicant Principal Investigators should also be able to demonstrate a promising track record of early achievements appropriate to

their research field and career stage, including significant publications (as main author) in major international peer-reviewed multidisciplinary scientific journals, or in the leading international peer-reviewed journals of their respective field. They may also demonstrate a record of invited presentations in well-established international conferences, granted patents, awards, prizes, etc.

For further information, please see the ERC Work Programme 2021.

### Αναλυτικός Κατάλογος

19/03/2021

<b>2 Πρόγραμμα:</b>	JUSTICE PROGRAMME
<b>Τίτλος:</b>	Call for proposals for action grants to support national or transnational projects: e-Justice
<b>Κωδικός:</b>	JUST-2021-EJUSTICE
<b>Ερευνητικές Περιοχές:</b>	Δίκαιο
<b>Δικαιούχοι:</b>	Νομικά Πρόσωπα
<b>Φορέας Κοινοποίησης:</b>	EUROPEAN COMMISSION - DIRECTORATE GENERAL JUSTICE AND CONSUMERS
<b>Ημερομηνία Δημοσίευσης:</b>	09/03/2021
<b>Προθεσμία Υποβολής:</b>	<b>06/05/2021</b>
<b>Περίληψη Πρόσκλησης:</b>	<p>Objective: The key objective of the call for proposals is to contribute to achieving the goals of the European e-Justice Strategy and Action Plan 2019-2023 by supporting the implementation of e-Justice projects at the European and national level, as far as they have a European dimension. Proposals aiming to develop projects on the main list of the Council e-Justice Action Plan will have priority over other projects indicated in the Action Plan.</p> <p>Themes and priorities: The key priorities for 2021 under this call are to: 1. Contribute to achieving the goals of the Commission Communication on the Digitalisation of Justice in the EU and the Council European eJustice Strategy and Action Plan 2019-2023 by supporting the implementation of e-Justice projects at the European and national level, as far as they have a European dimension. 2. Support projects aiming at joining or enhancing existing or on-going e-Justice projects. 3. Support the development of concrete use cases based on artificial intelligence and distributed ledger technology in the justice area. Without prejudice to the priority areas set out above, other e-Justice project proposals related to supporting relevant EU policies, such as victims' rights, rights of suspects and accused in criminal proceedings, and projects which are in advanced stage of development or already live on the e-Justice Portal at the moment when the call is published, will not be excluded. Transnational project proposals will have priority over national ones. National projects will be funded only insofar as they offer a clearly demonstrated EU added value, for instance providing best practices for other EU Member States or promoting interoperability.</p> <p>Activities that can be funded: Project activities under this call would in principle include: 1. Analytical, conceptual, design and elaboration work. 2. IT software development, quality assurance and related auxiliary measures</p>

necessary for the establishment of IT systems.

3. Expansion and adaptation of existing national and transnational solutions towards addressing the objectives of the call.

Supporting activities relating to project management, content preparation, editorial work, communication, promotion and dissemination are also eligible for funding.

The requirements and the application of the eIDAS Regulation, the use of the Digital Building Blocks developed under the Connecting Europe Facility (CEF) programme, as well as the results from the e-CODEX project and ISA Core vocabularies, should be taken into account, as relevant.

Expected impact:

- Improved participation, with the aim of achieving full EU coverage concerning the various e-Justice interconnection projects.
- Addressing the relevant policy goals set out in the Commission Communication on the digitalisation of justice in the EU.
- Opportunities allowing Member States to engage in new pilot initiatives, in particular those identified in the European e-Justice Action Plan (2019-2023).
- Development of initiatives with respect to the use of artificial intelligence and distributed ledger technology in the justice field.

<b>Προθεσμία Υποβολής:</b>	<b>06/05/2021</b>
<b>Περίληψη Πρόσκλησης:</b>	<p><u>Objective:</u> This call aims to establish 4-year Framework Partnership Agreements with European networks whose statutory aims are to facilitate and support judicial cooperation in civil and criminal matters and/or access to justice for all. The annual operating grants to be signed on the basis of these Framework Partnership Agreements will enhance the capacities of these networks to contribute actively to the development and implementation of the EU policies in these areas.</p> <p><u>Available budget:</u> The total budget earmarked for grants calls under this framework partnership call is EUR 4,2 million / year, to be granted following annual Specific Grant Agreement (SGA) calls. Depending on the number and quality of proposals, we expect to sign between 13 and 15 framework partnerships.</p>
