1 Πρόγραμμα:	Marie Sklodowska-Curie Actions
Τίτλος:	Call for Proposals - MSCA COFUND 2022
Κωδικός:	HORIZON-MSCA-2022-COFUND-01
Ερευνητικές Περιοχές:	Όλες οι Θεματικές Περιοχές
Δικαιούχοι:	Νομικά Πρόσωπα
Φορέας Κοινοποίησης:	EUROPEAN COMMISSION - DIRECTORATE GENERAL FOR RESEARCH & INNOVATION
Ημερομηνία Δημοσίευσης:	11/10/2022
Προθεσμία Υποβολής:	09/02/2023
Περίληψη Πρόσκλησης:	<p>Expected Outcome: Projects results are expected to contribute to the following outcomes: <u>For supported doctoral candidates or postdoctoral researchers</u> - Deeper and more diverse set of research-related and transferable skills and competences; - Improved employability and career prospects both within academia and beyond; - New mind-sets and approaches to R&I work forged through interdisciplinary and inter-sectoral experience; - Enhanced networking and communication capacities with scientific peers, as well as with the general public that will increase and broaden the research and innovation impact.</p> <p><u>For participating organisations</u> - Enhanced quality and sustainability of research training; - Increased global attractiveness, visibility and reputation of the participating organisation(s); - Stronger R&I capacity and output among participating organisations; - Increased contribution of the participating organisations to the local, regional and/or national socio-economic ecosystems; - Regular feedback of research results into teaching and education at participating organisations.</p> <p>Scope: Applicants submit proposals for new or existing doctoral or postdoctoral programmes with an impact on the enhancement of human resources in R&I at regional, national or international level. These programmes will be co-funded by MSCA COFUND. Proposed programmes can cover any research disciplines ("bottom-up"), but exceptionally can also focus on specific disciplines, notably when they are based on national or regional Research and Innovation Strategies for Smart Specialisation (RIS3 strategies). In this case, the range of covered disciplines should allow reasonable flexibility for the researchers to define their topic. Funding synergies with Cohesion policy funds and the Recovery and Resilience Facility (RRF) are strongly encouraged.</p>

Αναλυτικός Κατάλογος

25/10/2022

A Career Development Plan must be jointly established by the supervisor and each recruited researcher upon recruitment. In addition to research objectives, this Plan comprises the researcher's training and career needs, including training on transferable skills, teaching, planning for publications and participation in conferences and events aimed at opening science and research to citizens. The Plan must be established at the beginning of the recruitment and should be revised (and updated where needed) within 18 months.

COFUND takes the form of:

- A) Doctoral programmes
- B) Postdoctoral Programmes

Προθεσμία Υποβολής:	15/11/2022
Περίληψη Πρόσκλησης:	<p>The ERA Talents action aims to boost interoperability of careers and employability of research and innovation talents across sectors, with a centre of gravity in widening countries. Projects are expected to contribute to several of the following outcomes:</p> <ul style="list-style-type: none">-Strengthened human capital base in R&I of Widening countries, with more entrepreneurial and better-trained researchers, innovators and other R&I talents;-A more balanced talent circulation, both geographical and cross-sectoral;-Boosted R&I capacity and R&I support capacity, as well as contribution to increased excellence of the research-performing organisation in widening countries;-A more structured and impactful collaboration between academia and businesses;-Increased set of research, entrepreneurial and other transferable skills and competences;-Improved employability and sustainable career prospects of diverse talents within academia, industry and beyond. <p>Scope:</p> <p>Cross-sectoral talent circulation and academia-business collaboration for knowledge transfer is requiring systematising and structuring efforts. Through ERA4You, as one of the ERA Policy Actions, the European Commission aims to support and incentivise such transformations, towards a more balanced circulation of talents, both trans-nationally and across sectors. Within this scope, ERA Talents aims to support training and mobility of researchers, innovators, and other research and innovation talents across sectors with a particular focus on widening countries. The grant covers expenses related to the ERA Talents participating organisations and individual talents hosted/seconded (administrative costs, training costs, travel and subsistence costs and salaries for seconded staff, and costs associated with dissemination & communication and transfer of knowledge).</p>

3 Πρόγραμμα:	European Innovation Council
Τίτλος:	Call for proposals 2022 - Horizon Europe - Enhancing synergies between the EIC and Startup Europe (HORIZON-EIC-2022-STARTUPEU-01)
Κωδικός:	HORIZON-EIC-2022-STARTUPEU-01-01
Ερευνητικές Περιοχές:	Περιβάλλον, Κοινωνική και οικονομική συνοχή και πολιτισμική ανάπτυξη, Έρευνα & Ανάπτυξη
Δικαιούχοι:	Νομικά Πρόσωπα
Φορέας Κοινοποίησης:	EUROPEAN COMMISSION - INNOVATION & NETWORKS EXECUTIVE AGENCY
Ημερομηνία Δημοσίευσης:	21/10/2022
Προθεσμία Υποβολής:	17/11/2022
Περίληψη Πρόσκλησης:	<p>Scope:</p> <p>To support scaling up of companies in Europe, the EIC is seeking to build synergies with the wider European startup ecosystem via a second wave of actions under the Commission's Startup Europe initiative. The actions will act as a catalyst to fulfil the potential of European startups, in delivering market-ready applications and technology solutions that can contribute to the competitiveness and strategic autonomy of EU industry in key technology areas and value chains.</p> <p>Actions will reinforce the activities of the European Innovation Council by targeting digital and deep tech startups that have received support from EIC to support their scale up in Europe. The actions can support also deep tech startups not yet been supported by the EIC, including startups that have already received private investment or EU funding (e.g. under Horizon Europe or the Digital Europe Programme), and raise their awareness of the opportunities on offer from the EIC. It is foreseen that the targeted startup communities will contribute to development of applications that foster climate-neutrality, digital and circular economy, clean industry and user-centric technology development, while also encouraging inclusiveness, and incorporating European social and ethical values.</p> <p>Connecting local digital and deep tech startup ecosystems and supporting crossborder acceleration activities for startups. Among the startups ecosystems to be connected, specific attention will be given to including of ecosystems in Widening countries.</p> <p>Actions should also ensure the integration of startups with the Digital Europe Programme (for example from European Digital Innovation Hubs), the non-EIC parts of Horizon Europe (for example leveraging the Innovation Radar intelligence) and national programmes targeting startups. Actions should be published on the Startup Europe one-stop-shop and where relevant in the EIC Community, raise broad awareness of support for startups, while knowledge generated by the project(s) should contribute to EIC Business Acceleration Services and the general activities of the EIC Forum. Special attention will be given to support digital and deep tech</p>

Ημερομηνία Δημοσίευσης:	24/10/2022

Προθεσμία Υποβολής: 15/12/2022

Περίληψη Πρόσκλησης:

Objective:

The ERC wishes to support an organisation or a consortium of organisations to set up a funding scheme that would facilitate 3-5-month stays of journalists at research institutions. The purpose is to give the journalists opportunities to learn and work on in-depth reporting projects by immersing themselves in the research environment and interacting with scientists and scholars. Such opportunities – organised for example in collaboration with ERC host institutions and in ERC grantees' teams and labs – should facilitate better understanding of frontier research, while respecting journalistic independence. The holder of this coordination and support action grant would be expected to, among others:

- design the support programme that addresses the aforementioned goals, advances the set objective and respects the principle of editorial independence of journalists,
- set up a high-level media advisory committee to ensure the credibility and independence of the programme vis-a-vis journalists' community,
- prepare conditions to carry out the actions, especially establish relations with ERC grantees and host institutions' press offices to make sure the fellowships and placements are well organised and useful both to the journalists and to researchers,
- launch calls for applications or proposals for fellowships or placements potentially using the Financial support to third parties (FSTP),
- evaluate the proposals based on the criteria of excellence and impact, ensuring balance in terms of topics covered by the participating journalists, geographical distribution of host institutions, and gender of the participants,
- provide funding to journalists or researchers,
- organise meetings, networking opportunities for the participating journalists and researchers,
- monitor the implementation of the programme, and report to the ERC on the performance of the programme.

This ERC call allows for financial support to third parties (FSTP). Those applicants that foresee implementation of actions by providing FSTP must clearly describe the objectives of the action and the expected results, as well as meet the specific conditions

Ενημέρωση για τα ερευνητικά προγράμματα

Αναλυτικός Κατάλογος

25/10/2022

on the use of FSTP as set out in the Model Grant Agreement (see Article 6.2.D.1 and Article 9 of the Horizon Europe Model Grant Agreement), and describe among others the conditions for submission, evaluation and selection of proposals of third parties.

8 Πρόγραμμα:	European Research Council
Τίτλος:	Call for Proposals 2023 - Call for proposals for ERC Proof of Concept Grant (ERC-2023-POC)
Κωδικός:	ERC-2023-POC
Ερευνητικές Περιοχές:	Έρευνα & Ανάπτυξη, Απασχόληση
Δικαιούχοι:	Νομικά Πρόσωπα
Φορέας Κοινοποίησης:	EUROPEAN COMMISSION - DIRECTORATE GENERAL FOR RESEARCH & INNOVATION
Ημερομηνία Δημοσίευσης:	24/10/2022
Προθεσμία Υποβολής:	24/01/2023
Περίληψη Πρόσκλησης:	<p>Objective: Objectives: The ERC Proof of Concept Grants aim at facilitating exploration of the commercial and social innovation potential of ERC funded research, by funding further work (i.e. activities which were not scheduled to be funded by the original ERC frontier research grant) to verify the innovation potential of ideas arising from ERC funded projects. Proof of Concept Grants are therefore on offer only to Principal Investigators whose proposals draw substantially on their ERC funded research.</p> <p>Scope: Size of ERC Proof of Concept Grants: The financial contribution will be awarded as a lump sum of EUR 150 000 for a period of 18 months. The ERC expects that, normally, proof of concept activities should be completed within 12 months. However, to allow for those projects that require more preparation time, the grant agreements will be signed for 18 months. Extensions of the duration of proof of concept projects may be granted only exceptionally. The lump sum will cover the beneficiaries' direct and indirect eligible costs for the project: if the project is implemented properly, the amounts will be paid regardless of the costs actually incurred. The lump sum has been designed to cover the beneficiaries' personnel costs, subcontracting, purchase costs, other cost categories, and indirect costs.</p> <p>Profile of the ERC Proof of Concept Eligible Principal Investigator: All Principal Investigators in an ongoing ERC main grant or in a ERC main grant that has ended less than 12 months before 1 January 2023, are eligible to apply for an ERC Proof of Concept Grant.</p>
